

Universal Soap

Soap for regularly cleaning all interior oiled wooden surfaces

Universal Soap is a universal and pH-neutral maintenance soap for the regular cleaning of all oiled surfaces. The product cleans the surface thoroughly, without leaving a film, and keeps the matt, natural look of the wood. Universal Soap is very concentrated and hence very economical.

PRODUCT INFORMATION

› Specific characteristics

- Highly concentrated and extremely economical
- Soap with cleaning function
- Maintains the matt and natural appearance of the wood
- pH-neutral
- 0% VOC

› Technical characteristics

- Physical state at 20°C: liquid
- Odour: citrus fruits
- Colour: yellow
- Density: 1,01 kg/L
- pH: 6-8
- VOC content: 0 g/L

› Packaging

› Storage

The product can be stored for 24 months in a dry, cool and frost-free place and in its original packaging. Once opened, limited shelf life.

APPLICATION INFORMATION

> Instructions for use

STEP 1. Vacuum the surface. Remove dust, sand, stones, ...

STEP 2. Pour a maximum of 50 to 100 ml of Universal Soap in a bucket with 10 litres of water.

STEP 3. Clean the surface with a mop or Microfiber Pad.

- Tip: The best working method is with two buckets: one with the soap mixture and one with clean water to rinse the dirt out of the mop.

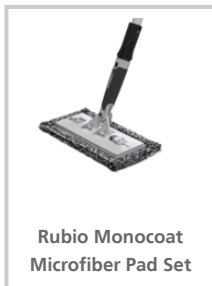

STEP 4. Rinse with clean water. Careful: do not leave water on the surface, it is sufficient to clean damp.

STEP 5. Allow to dry for ± 15 minutes. Do not walk on the floor until it is completely dry.

> Tips & Tricks

- We recommend cleaning with Universal Soap no more than once a week. When cleaning too often or with too high a dosage of Universal Soap, a light layer can be left on the surface that will trap dust and dirt.
- Although many stains can be removed with Universal Soap, Rubio Monocoat also developed a number of specific stain removers in case they don't disappear with the regular soap (e.g. stubborn lime stains, grease stains, black/tannic acid stains).
